

KKCG Maritime reaffirms commitment to Ferretti as governance proceedings continue

- KKCG Maritime reiterates its long-term commitment to Ferretti's growth, Italian industrial heritage and shareholder value
- Bologna Court declines urgent interim relief; underlying governance proceedings remain ongoing, with substantive hearings scheduled to begin in the coming months
- KKCG Maritime highlights opportunities to strengthen Ferretti's competitiveness through strategic investment, industrial development and international expansion

Milan, Hong Kong, Prague, 13 October 2026– KKCG Maritime, a KKCG Group company and the second-largest shareholder of Ferretti S.p.A. ("Ferretti" or the "Company"), notes the interim order issued by the Civil Court of Bologna, Specialized Business Section, declining, at this stage, to grant the urgent interim relief sought in connection with KKCG Maritime's legal action concerning the Company's 14 May 2026 Shareholders' Meeting.

The Court has scheduled substantive hearings on the matter to begin in the coming months. The interim ruling does not determine the merits of KKCG Maritime's underlying claims, which remain pending before the Court. KKCG Maritime looks forward to reviewing the Court's reasoning in full and will continue to pursue the matter through the appropriate legal channels and assess all available legal and regulatory options.

The proceedings concern important questions relating to the exercise of shareholder voting rights, compliance with Italy's Golden Power framework and the disclosure of certain shareholder arrangements. KKCG Maritime believes these matters warrant full judicial scrutiny in the interests of transparency, sound governance and the long-term stability of Ferretti.

Kamil Zeman, Executive Director of KKCG Maritime, said: *"Our commitment to Ferretti has always been about its long-term success. While this interim order does not resolve the governance and transparency issues we have raised, our focus remains firmly on the Company's future. We invested in Ferretti because we believe in the strength of its brands, its industrial capabilities and its people. Ferretti has delivered strong operational performance, and we see significant opportunities to build on these foundations through strategic investment, sound governance and long-term value creation".* He also added: *"We are particularly committed to supporting Ferretti's Italian industrial heritage, preserving its manufacturing capabilities and specialist know-how, and ensuring that the Company is well positioned to seize the opportunities ahead. We believe strong and transparent governance is essential to achieving these ambitions in the interests of all shareholders and stakeholders."*

A long-term vision for Ferretti's growth

KKCG Maritime's engagement with Ferretti extends well beyond the current legal proceedings. Having acted as an anchor investor in the Company's Milan listing and subsequently increased its holding to more than 23%, KKCG Maritime remains committed to supporting Ferretti's long-term development and helping unlock its full industrial and commercial potential.

As a long-term European shareholder, KKCG Maritime believes that strong governance, strategic investment and a clear industrial vision are essential to strengthening Ferretti's competitive position and

delivering sustainable growth. In this context, KKCG Maritime sees significant opportunities across several strategic priorities:

- Strengthening Ferretti's Italian industrial base: supporting the Company's manufacturing footprint in Italy, safeguarding its specialist know-how and technological capabilities, and promoting long-term investment in its Italian operations and supply chain.
- Accelerating growth through strategic acquisitions: Exploring opportunities to consolidate Ferretti's position in the global yachting industry through value-accretive acquisitions of complementary brands and maritime businesses.
- Expanding international reach and customer services: Strengthening Ferretti's presence in key markets through selective distribution investments and developing additional services across the yacht ownership lifecycle.
- Enhancing operational competitiveness and shareholder value: Identifying opportunities for greater vertical integration, strengthening capital allocation discipline and supporting sustainable long-term returns.

KKCG Maritime believes Ferretti is well positioned to capitalise on opportunities for industry consolidation and international growth, building on the strength of its brands, its Italian manufacturing excellence and its established global presence.

The company remains committed to working constructively with Ferretti's management and stakeholders to support its continued success, strengthen governance and help realise the full potential of one of Italy's most iconic industrial and luxury businesses.

About KKCG

KKCG is an investment and innovation group with expertise in entertainment, energy, technology, real estate and other sectors. Founded by entrepreneur, investor and philanthropist Karel Komarek, KKCG employs more than 16,000 people in over 40 countries across its portfolio companies and has more than EUR 10.5 billion in assets under management. KKCG's businesses include, among others, KKCG Maritime and Allwyn, a multinational lottery-led entertainment company; MND Group, an international producer and supplier of traditional and renewable energy; Aricoma and Avena, providers of comprehensive IT services and custom software development globally; and KKCG Real Estate Group, complemented by a portfolio of diversified ventures including start-ups, biotechnology, maritime and consultancy. With operations across several continents, KKCG businesses draw on capital, networks and insights from across the group to enable profitable, sustainable long-term growth. KKCG is committed to supporting the communities in which it operates and contributing to the societies of which it is part.
